

Passware Kit Business

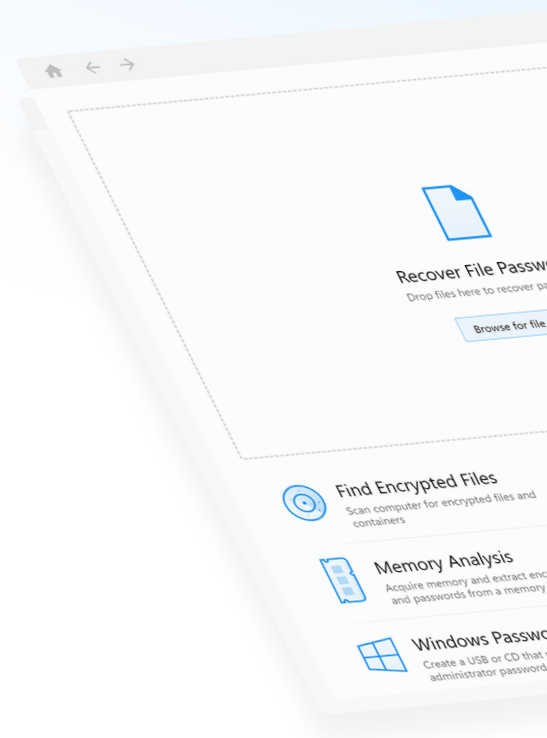

The best password recovery and encryption audit solution.

What's new in 2024 v1

- Running password recovery attacks simultaneously
- Decryption of QuickBooks 2024 databases
- New product icons

Passware Kit Business helps IT professionals, system administrators, and security experts to solve password related problems, which frequently occur in corporate environment. The software recovers passwords for 340+ types of files and supports all popular applications used in business. Many types of passwords are recovered or reset instantly. To achieve the highest speed, Passware Kit Business uses hardware acceleration. Multiple files are processed simultaneously.

For the complete list of features and updates, visit passware.com/pkb

Password recovery for 340+ file types

MS Office, PDF, Zip, RAR, QuickBooks, FileMaker, Lotus Notes, Apple Notes, password managers, and many other popular applications.

Automatic updates

Includes automatic software updates with one year of Software Maintenance and Support (SMS) subscription.

Live memory analysis

Analyzes live memory images and hibernation files and extracts encryption keys for hard disks and passwords for files and websites.

Batch processing

Runs password recovery for groups of files and FDE images without user intervention.

Encryption detection and analysis

Detects all encrypted files and hard disk images and reports the type of encryption and the complexity of the decryption.

Hardware acceleration

Accelerates password recovery with multiple computers, NVIDIA & AMD GPUs, and Rainbow Tables.

64-bit version

Improved performance, including the capacity to process thousands of files simultaneously and to handle larger dictionary files.

Decryption of FDE

Decrypts or recovers passwords for BitLocker, FileVault2, APFS, TrueCrypt, VeraCrypt, LUKS, McAfee, Apple DMG, Symantec, and PGP disk images.
