

# Passware Kit Business

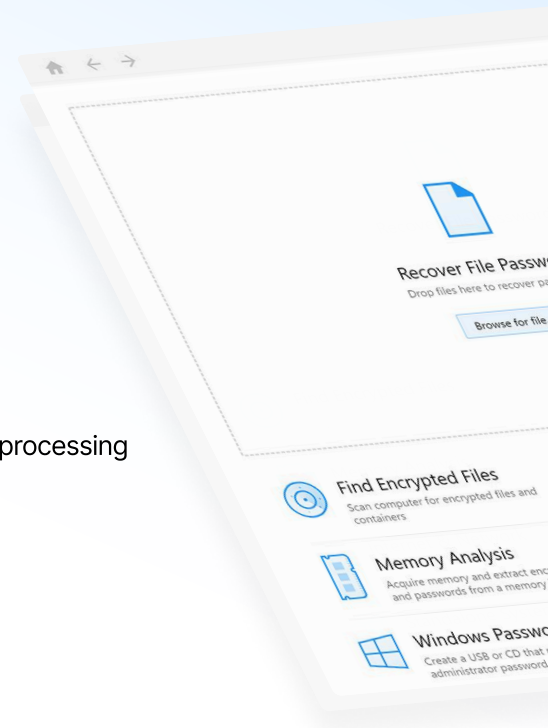

The best password recovery and encryption audit solution.

## What's new in 2025 v2

- Password recovery for VeraCrypt volumes with BLAKE2s-256 encryption
- VeraCrypt memory analysis: support for hidden OS for latest versions and faster processing
- Smart resource allocation algorithm for distributed and batch processes
- Password recovery for individual Apple Notes
- Password recovery for WinRAR v.7 and RAR hashes

Passware Kit Business helps IT professionals, system administrators, and security experts to solve password related problems, which frequently occur in corporate environment. The software recovers passwords for 370+ types of files and supports all popular applications used in business. Many types of passwords are recovered or reset instantly. To achieve the highest speed, Passware Kit Business uses hardware acceleration. Multiple files are processed simultaneously.

For the complete list of features and updates, visit [passwa.re/pkb](https://passwa.re/pkb)

### Password recovery for 370+ file types

MS Office, PDF, Zip, RAR, QuickBooks, FileMaker, Lotus Notes, Apple Notes, 1Password and other password managers, and many other popular applications.

### Automatic updates

Includes automatic software updates with one year of Software Maintenance and Support (SMS) subscription.

### Live memory analysis

Analyzes live memory images and hibernation files and extracts encryption keys for hard disks and passwords for files and websites.

### Batch processing

Runs password recovery for groups of files and FDE images without user intervention. Smart resource allocation algorithm for concurrent file processing minimizes hardware idle time.

### Encryption detection and analysis

Detects all encrypted files and hard disk images and reports the type of encryption and the complexity of the decryption.

### Hardware acceleration

Accelerates password recovery with multiple computers, NVIDIA & AMD GPUs, and Rainbow Tables.

### 64-bit version

Improved performance, including the capacity to process thousands of files simultaneously and to handle larger dictionary files.

### Decryption of FDE

Decrypts or recovers passwords for APFS, Apple DMG, BitLocker, FileVault2, LUKS, McAfee, PGP, SanDisk, Symantec, TrueCrypt, and VeraCrypt containers, disk images, and vaults.
