

PASSWARE KIT BUSINESS

All-in-one password recovery and decryption solution for corporations

Passware Kit Business 2017 v3

Passware Kit Business helps IT professionals, system administrators and security experts to solve password related problems, which frequently occur in corporate environment. The software recovers passwords for 250+ types of files and supports all popular applications used in business. Many types of passwords are recovered or reset instantly. To achieve the highest speed, Passware Kit Business uses hardware acceleration. Multiple files are processed simultaneously.

- NEW** Password recovery for 1Password for Windows
- NEW** Support for iOS 10.3 iTunes Backups
- NEW** Support for Windows Server 2016 passwords
- NEW** Decryption of BitLocker and TrueCrypt volumes

Key Product Features

Live Memory Analysis

Analyzes live memory images and hibernation files and extracts encryption keys for hard disks, logins for Windows & Mac users, and passwords for files and websites

Automatic Updates

Automatic software updates with 1 year of free Software Maintenance and Support (SMS) subscription

Recovers passwords for 250+ file types

Including BitLocker, TrueCrypt, FileVault2, and PGP hard disks, MS Office 2016 documents, and providing an all-in-one user interface

Batch processing

Runs password recovery for groups of files without manual intervention

64-bit version

Improved performance while processing thousands of files simultaneously and larger dictionary files

GPU, TACC, Distributed Computing, and Rainbow Tables

Accelerated password recovery with multiple computers, NVIDIA & AMD GPUs, Tableau Password Recovery and TACC, and Rainbow Tables

Scans computers for encrypted evidence

Detects all the encrypted files & hard disk images, reports encryption type and decryption complexity

Decrypts FDE

Decrypts or recovers passwords for BitLocker, TrueCrypt, LUKS, FileVault2, Apple DMG, and PGP disk images
