

PASSWARE KIT BUSINESS

All-in-one password recovery and decryption solution for corporations

Passware Kit Business 2017 v1

Passware Kit Business helps IT professionals, system administrators and security experts to solve password related problems, which frequently occur in corporate environment. The software recovers passwords for 250+ types of files and supports all popular applications used in business. Many types of passwords are recovered or reset instantly. To achieve the highest speed, Passware Kit Business uses hardware acceleration. Multiple files are processed simultaneously.

- NEW** Instant FileVault2 decryption using data extracted from iOS backups
- NEW** Support for QuickBooks 2016 and 2017
- NEW** Password Recovery for 1Password
- NEW** Dictionaries for Danish and Swedish languages

Key Product Features

Live Memory Analysis

Analyzes live memory images and hibernation files and extracts encryption keys for hard disks, logins for Windows & Mac users, and passwords for files and websites

64-bit version

Improved performance while processing thousands of files simultaneously and larger dictionary files

Automatic Updates

Automatic software updates with 1 year of free Software Maintenance and Support (SMS) subscription

GPU, TACC, Distributed Computing, and Rainbow Tables

Accelerated password recovery with multiple computers, NVIDIA & AMD GPUs, Tableau Password Recovery and TACC, and Rainbow Tables

Recovers passwords for 250+ file types

Including BitLocker, TrueCrypt, FileVault2, and PGP hard disks, MS Office 2016 documents, and providing an all-in-one user interface

Scans computers for encrypted evidence

Detects all the encrypted files & hard disk images, reports encryption type and decryption complexity

Batch processing

Runs password recovery for groups of files without manual intervention

Decrypts FDE

Decrypts or recovers passwords for BitLocker, TrueCrypt, LUKS, FileVault2, Apple DMG, and PGP disk images
